

A BRITISH TV HUB SUBSCRIBER EXCLUSIVE

Ludwig: Season One Recap & What's Ahead in Season Two

What Happened in Season One

Puzzle-setter John "Ludwig" Taylor spent his days writing bestselling crossword and puzzle books under a pen name, keeping mostly to himself — until his identical twin brother, DCI James Taylor, vanished without a trace. At his sister-in-law Lucy's urging, John reluctantly stepped into James's identity, posing as a Cambridge Police detective while quietly searching for clues about his brother's disappearance.

What started as a short-term impersonation spiralled into six solved cases, each one cracked using John's puzzle-solver's logic rather than conventional police work. Along the way, the season built toward a bigger mystery: the death of a conspiracy theorist named Roger Sinclair, and the discovery that James had gone into hiding after uncovering something dangerous connected to it.

By the finale, John's secret unravelled — Lucy was wrongly accused of murder, forcing him to admit the truth about the swap. With his usefulness impossible to deny, John was invited to stay on as an official consultant, no longer needing to hide behind his brother's identity. And in the season's final moments, James was shown alive and watching from the shadows — his whereabouts still unknown.

Season One took John on a walking tour of Cambridge — one of the show's real filming locations

Who's Who: A Character Refresher

A quick reintroduction before Season Two begins:

John "Ludwig" Taylor

Puzzle-setter turned reluctant detective

Lucy Betts-Taylor

James's wife, John's sister-in-law and closest ally

Henry Betts-Taylor

Lucy and James's son

DCS Carol Shaw

Senior officer overseeing the department

DI Russell Carter

John's most steady work partner on the force

Chief Constable Ziegler

An intimidating presence at the top of the department, with his own complicated ties to the team

DI Matt Neville

James's former partner, who went into hiding after the Sinclair case

The incident room where Season Two's puzzles take shape

What to Watch For in Season Two

Season Two picks up right where Season One left off. John no longer has to pretend to be James — he's now an official Crime Scene Consultant for the Cambridgeshire police. One catch: he's forbidden from using police resources to keep searching for his missing brother, which means the hunt for James has to continue on his own time.

NEW FACES THIS SEASON

Gareth Fisher, a newspaper editor played by Mark Bonnar, and Joanne Kemper, a local MP played by Sian Clifford — a politician John finds reason to be wary of early on. Two new detectives, Ethan Cole and Caitlin Sullivan, also join the department.

Expect the same mix of self-contained weekly puzzles and a season-long mystery underneath it — this time centred on where James has really been, and what he was protecting.

Episode One: A First Look

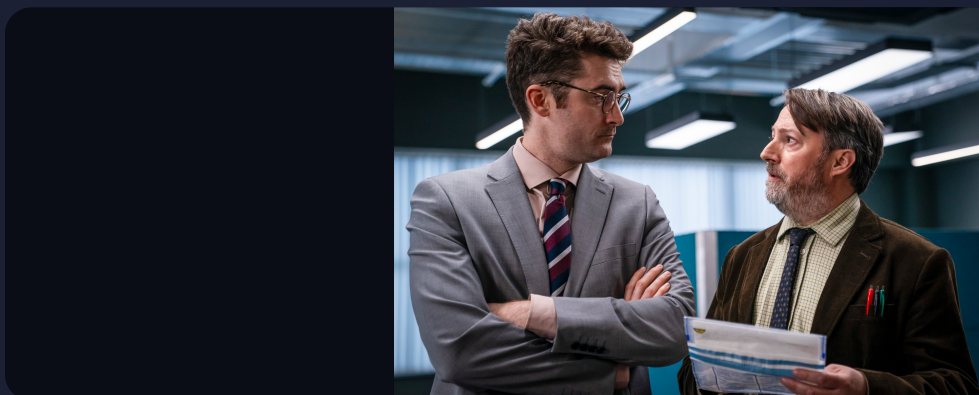

New official photos from Season Two, Episode One:

John, Lucy, DI Carter and DI Neville gather around a snooker table as a new case takes shape.

Lucy studies a crowded incident board – Cambridge Police's case notes, maps, and photographs pinned up behind her.

A tense exchange at the station between two familiar faces from the department.

A Christmas Surprise

Before Season Two wraps up, keep an eye out for British TV Hub's upcoming Holiday Guide — because Ludwig has a Christmas special on the way, and it looks like a real treat.

Set in Yorkshire, the hour-long episode finds John, Lucy, and Henry checking into a remote Christmas-themed hotel for a quiet family getaway. Instead, a blackout during a blizzard turns the holiday into a locked-room murder mystery — with the Taylors snowed in overnight alongside a killer, racing to solve the case before Christmas morning.

Sir David Suchet joins the Christmas special — on the other side of the investigation this time

The guest list is where things get especially fun for mystery fans: Sir David Suchet — yes, television's own Hercule Poirot — joins as a murder suspect this time, turning the tables in a way that feels almost too perfect. He's joined by a stacked guest cast including Jason Flemyng, Alexandra Roach, and Kiell Smith-Bynoe, alongside the full main cast.

Thank You for Being a Subscriber

Look out for British TV Hub's full First Look at Ludwig Season Two, Episode One, coming soon — plus the Holiday Guide later this season, featuring the Ludwig Christmas special.

And if you're already looking further ahead — good news: Season Three of Ludwig is already in production.
